

K-LOVE is a local station I listen to all of the time. There are several reasons. It jump starts my day, when I listen to it in the morning; it provides me with knowledge about the world and the people of the world, when I listen to it during my lunch hour; and it gives me peace and a sense of well being at the end of my stressfull days. The fact that it is Christian based is very important for me and the local community. We are in a society where negativity, anger, and violence are becoming the norm and many of the other programs support and even encourage that type of behavior with their choice of music and commentaries. Therefore, I believe that if you remove K-LOVE, as a choice in the community, you will be propagating the distruction of our society, and removing the moral and faith based lessons or priciples, which Iowa and our country was originally based on. Please do not remove K-LOVE from the programing, as it would definetly be a great loss to me personally and to the community.
